

CNC Programmer - Afternoon Shift - Job Posting - Barrie, Ontario

Prodomax is a specialized industrial engineering firm focused on designing complex automation with a blue-chip customer base and a tremendous track record since it was founded in 1971. Prodomax operates from two facilities with a combined footprint of 200,000 square feet and 200+ employees in Barrie, Ontario. In July 2018, Prodomax joined forces with Jenoptik a globally operating technology group which is present in more than 80 countries with approximately 4,000 employees worldwide. Jenoptik's key capabilities include optics, lasers, metrology and automation servicing the automotive, life sciences and semi-conductor industries.

Prodomax has earned many prestigious awards for its advanced processes including:

- Best Managed Companies Award
- Best Managed Companies Gold Award
- Barrie Chamber of Commerce – Business Excellence Award
- Barrie Chamber of Commerce – Innovation Award

Reporting to the Machine Shop Lead, the CNC Programmer/Operator is responsible for setting up and operating conventional, special-purpose and numerical control (CNC) machines and machining centers to fabricate parts. The CNC Programmer/Operator may instruct operators or other workers in machine set up and operation. **The hours for the afternoon shift will be 3:30 pm to 2:00 am, Monday to Thursday. Shift premium will apply.**

Key Accountabilities and Responsibilities:

- Experienced and self-directed in set up and operation of CNC Milling operations
- Develop CNC Programs both manually and by using software to ensure efficient, cost-effective machining of parts
- Set-up, adjust and troubleshoot CNC machines to ensure that parts are produced according to quality requirements
- Ensure set-ups and repairs are done in a manner to minimize downtime, scrap and tooling costs
- Ensure all safety precautions and procedures are followed and work within the guidelines and rules of the *Occupational Health & Safety Act* and Prodomax policies
- Recommend changes to continuously improve tooling and processes
- Participate in team problem solving and preventative/corrective action
- Coordinate with Plant and Engineering personnel to work on sample parts and continuous improvement projects
- Perform tooling preventative maintenance
- Train and assist CNC operators in insert changes and minor offset adjustments
- Maintain high standards of housekeeping at all times
- Some heavy lifting

CNC Programmer/Operator Key Professional Attributes:

- Completion of an apprenticeship program for Machinist and holds a Machinist Certificate of Qualification
- Three (3) years' experience as a Licensed Machinist performing CNC Programming and Set-up in a manufacturing environment – preferably automotive
- Excellent knowledge of CNC Programming and CNC machine controls i.e. tool offsets/changes, program changeovers
- Advanced knowledge of machining and proven experience in prototyping and blueprint reading

Our Benefits:

- Competitive salary and profit-sharing bonus
- Comprehensive Group Health & Dental Benefit Plan
- Employee assistance and wellness programs
- Employee training, development, tuition and professional fees reimbursement
- Partial tuition reimbursement for employees' Children enrolled in technical program at recognized Canadian college/university
- Annual performance management review
- Safe, professional work environment
- Casual business dress
- \$1,000 referral fee if you recommend an approved permanent hire – family & friends included
- Safety shoes and safety glasses reimbursement
- Prodomax Employee Excellence Recognition (PEER) Awards

We have mountain bikers, road bikers, skiers, golfers, runners, video game heroes, musicians, community volunteers, race car drivers, fitness enthusiasts, hockey players, outdoor sportspeople, TV & potato chip experts, single people, family people, and every other variety of people. Everyone is welcome.

Prodomax is minutes away from the GO Station connected to Toronto and close to beautiful Kempenfelt Bay on Lake Simcoe. Barrie has something for everyone. Just ask our people.
