Thank you for submitting your annual report under the *Fighting Against Forced Labour and Child Labour in Supply Chains Act*.

Complete the questionnaire and submit your report

The next reporting deadline for the *Fighting Against Forced Labour and Child Labour in Supply Chains Act* (Act) is May 31, 2026. Questionnaire responses and annual reports must reference the activities undertaken during the entity's or government institution's previous financial year.

If an entity or government institution is unsure whether they are required to report, refer to guidance on the application of the Act for [entities](#) or [government institutions](#).

Purpose of the questionnaire

To submit their annual report to Public Safety Canada, entities and government institutions must complete this questionnaire. The questionnaire collects information that responds to the Act's reporting requirements and is the mechanism for submitting an annual report to Public Safety Canada.

Questionnaire responses are used internally by Public Safety Canada to track submissions and catalogue reports. Submission information collected through the questionnaire supports the search function in the online repository of annual reports. Public Safety Canada may also use questionnaire responses for analytical purposes.

Entities and government institutions subject to the Act may refer to the list of questions and examples within the questionnaire when developing their annual reports. The reporting exercise, over time, is expected to improve entities' and government institutions' capacity to identify, prevent, and reduce forced labour and child labour risks in their supply chains.

Completing the online questionnaire

The questionnaire is completed using information from activities undertaken during the entity's or government institution's previous financial year.

In the case of a [joint report](#), only the entity submitting the report should complete the questionnaire on behalf of all entities covered by the report. A joint report should only be submitted if the information provided generally applies to all entities covered by the report.

The questionnaire is considered complete if all of the mandatory fields have been filled out and a report has been uploaded at the end of the questionnaire that meets the following requirements of the Act:

- Contains information addressing each of the requirements in [subsections 6\(1\) and 6\(2\)](#), for government institutions, or in [subsections 11\(1\) and 11\(3\)](#), for entities;

- For entities, has received the necessary approvals and includes the signed attestation;
- For government institutions, is submitted in both official languages;
- Is a PDF file that does not exceed 100MB in size.

Public Safety Canada recognizes that the online questionnaire does not allow entities and government institutions to elaborate on all answers within the questionnaire. Entities and government institutions are encouraged to respond to the multiple choice questions to the best of their ability and provide further clarification and detail within the open text fields and their standalone PDF annual report, as necessary.

At the end of the questionnaire, entities and government institutions must upload their annual report in PDF format, and select “submit”. Entities and government institutions will receive a confirmation email following submission, and will have the option to download a copy of their responses to the questionnaire.

Language requirements

Entities must complete the questionnaire and submit the PDF report at the end of the questionnaire in **one of the two Canadian official languages**. It is recommended, however, that reports be submitted in both English and French, in order to make reports accessible to the broader Canadian public. Entities that opt to submit their report in both Canadian official languages can upload two separate PDF files at the end of the questionnaire. Requests for translated copies of reports may be directed to the responsible entity.

Government institutions may complete the questionnaire in either Canadian official language, but are required to submit the **PDF version of their report in both English and French**, as per the *Official Languages Act*. At the end of the questionnaire, government institutions must upload their reports in both English and French as separate PDF files before they select “submit.”

Publication requirements

On providing a report to Public Safety Canada, entities and government institutions must publish their report in a prominent place on their website.

Reports submitted to Public Safety Canada will be made publicly available in a searchable [online catalogue](#) which is updated on an ongoing basis.

Only the PDF reports and select information submitted through the online questionnaire will be published on the Public Safety Canada website.

Public Safety Canada is not responsible for the content of reports submitted by entities, which may not meet federal standards related to accessibility and official languages.

Failure to report

Failure to submit an annual report in accordance with the Act is considered an offence under subsection 19(1).

Knowingly making a false or misleading statement or providing false or misleading information is considered an offence under subsection 19(2).

All offences under subsections 19(1) and 19(2) are punishable on summary conviction and a fine of not more than \$250,000.

Data Management Disclaimer

Questionnaire responses will be stored by Public Safety Canada and will be disposed of in accordance with the Policy on Service and Digital, the *Access to Information Act*, the *Privacy Act* and the *Library and Archives Act*. The report itself will be added to the Public Safety Library's collection and will be subject to the Public Safety Canada Library Collection Development Policy.

Public Safety Canada may proceed with the manipulation or translation of answers to align the bibliographical data of the report to Treasury Board Secretariat (TBS) Standard for Managing Metadata and Public Safety Canada Library cataloguing and description procedures.

In addition to the TBS standards for managing metadata, the library maintains a bilingual cataloguing style that reflects Library and Archives Canada's own policy on the Directive on the Official Language of Description (canada.ca). Specifically, metadata is entered in the language of submission, in order to present a "true and accurate representation of that publication".

In instances where an entity submits two reports: one in French, and one in English, these resources are divided and catalogued separately, with metadata being entered once in French, and once in English, to accurately reflect the contents of each.

If a singular bilingual publication is submitted, then we will enter all metadata twice in the same record, once in French, and once in English. In all scenarios, the goal is to accurately reflect the language contents of the published work within the metadata itself.

Privacy Notice Statement

Personal information (i.e., contact information) is collected by Qualtrics on behalf of Public Safety Canada for the purpose of verifying information contained in reports submitted under the *Fighting Against Forced Labour and Child Labour in Supply Chains Act* (Act).

Do not provide personal information, as defined in section 3 of the Privacy Act, in the questionnaire or the annual reports. “**Personal information**” is defined under the Privacy Act as **any recorded information about an identifiable individual**.

Personal information will be managed and administered in accordance with the *Access to Information Act*, the *Privacy Act* and any other applicable laws. Public Safety Canada may use the personal information provided in the questionnaire responses for policy development purposes, but the information may also be used for investigative purposes.

Our organization takes a proactive approach to identifying and mitigating the risk of forced labour and child labour within our supply chain. For vendors supplying products manufactured outside of North America, we conduct supplier audits as part of our onboarding and ongoing qualification process. This includes a formal review and acceptance of our internal Child Labour Policy and Standard, which outlines our expectations in alignment with applicable legislation including the Fighting Against Forced Labour and Child Labour in Supply Chains Act. Suppliers are required to confirm in writing that their operations and those of their sub-suppliers comply with all applicable local laws related to minimum working age, working hours, compensation, and freedom of employment. We retain documentation of these confirmations as part of our supplier qualification records. Where risk is identified or a supplier is unable to provide adequate confirmation, we escalate the matter through our procurement and quality management processes, which may include additional audits, corrective action requirements, or supplier disqualification. We are continuing to strengthen our supplier risk assessment framework to ensure consistent application across all procurement categories.
